# The BlockMaster Range and Function

#### Product Range

- Parallel action clamps with rotating options, for single packs of flag and kerb
- Parallel action clamps for double packs of flag and curb
- Pivot type clamps designed for handling one, two or multiple brick or block packs
- Pivot type clamps with rotating options for handling one, two or multiple brick or block packs
- · Load stabilizers for green products
- Kiln tine attachments for green products
- Special constructions for individual site requirements

#### **Key Product Areas**

- · Brick and clay products
- Block and concrete products
- Flag, kerb and decorative stone
- Bespoke constructions

The building products industry is a demanding one. Moving diverse products quickly, effectively and without damage can be challenging. Having researched and developed products for this industry for a number of years, B&B Attachments have more than equipped themselves to meet the handling needs within this industry.

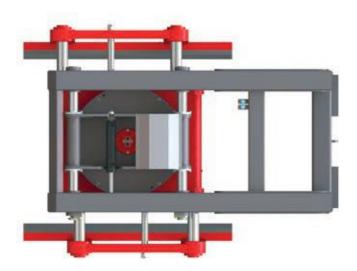

B&B Attachments experience and understanding of the building products industry has been invaluable in the development of BlockMaster, the only comprehensive range of attachments available from a single source. BlockMaster delivers maximum productivity and damage reduction.

B&B have grown into the undisputed market leader in the supply of forklift attachments to this industry in the UK. B&B provide a service for Builders Merchants, third party distributors, dealers as well as the manufacturers of brick, block, flag and kerb products.
